# CONTENTS

# USEFUL INFORMATION

All our cabins can be done in fully insulated. We can add insulation kit for walls if needed as well as for the roof and floor. Some of our larger range of cabins have roof and floor insulation included as a standard.

Normative u-values (W/m<sup>2</sup>K) for wall structures with and without additional thermal insulation (log  $\lambda_n$  = 0,12 W/mK, wool  $\lambda_n$  = 0,037).

Log size mm.	Single wall	100 mm. insulation
70 x 135	1,33	0,31
92 x 135	1,04	0,29
140 x 180	0,76	0,25
92 x 171	1,04	0,29
112 x 178	0,91	0,27
152 x 178	0,72	0,24

Optional features:  
Insulated roof/floor system

Optional features:  
Insulation kit for walls

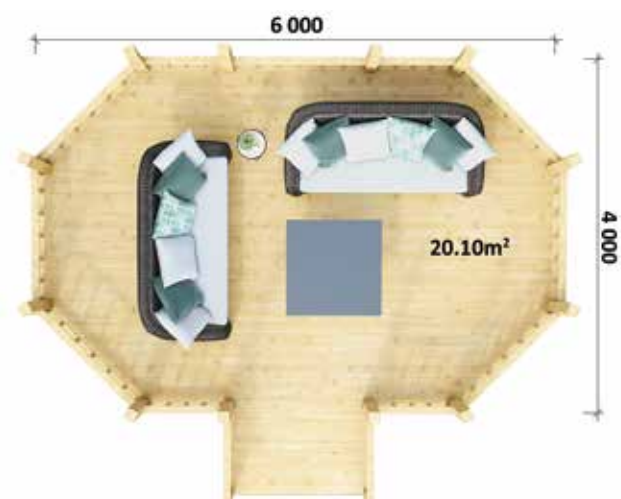

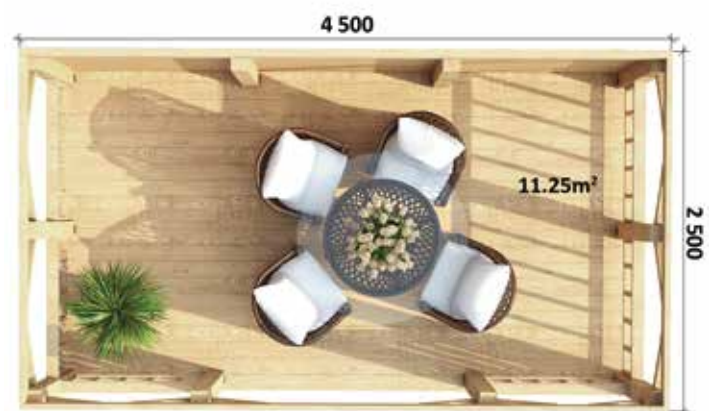

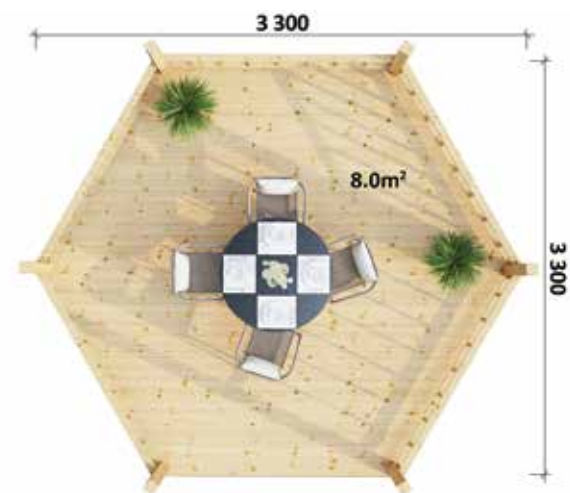

We produce different style and type of windows and doors. All our standard windows are double glazed and can be done inward or outward opening. We use IV68 and IV92 profiles. We are also able to produce triple glazed windows.

More information about our windows from [www.eww.ee](http://www.eww.ee)
